

# Alternative Fuel Stations

## Tags

biofuel, alternative fuel, transportation

## Summary

The source date of this Alternative Fueling Stations dataset is **December 10, 2021**. It was obtained from the U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Alternative Fuels Data Center data download page ([https://afdc.energy.gov/data\\_download](https://afdc.energy.gov/data_download)).

**All records are included except planned stations.**

Through a nationwide network of local coalitions, Clean Cities provides project assistance to help stakeholders in the public and private sectors deploy alternative and renewable fuels, idle-reduction measures, fuel economy improvements, and emerging transportation technologies. The Department of Energy collects these data as part of the projects undertaken by Clean Cities coalitions and stakeholders to ensure customers' access to clean alternative energy.

## Description

The source date of this Alternative Fueling Stations dataset is **December 10, 2021**. It was obtained from the U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Alternative Fuels Data Center data download page ([https://afdc.energy.gov/data\\_download](https://afdc.energy.gov/data_download)).

**All records are included except planned stations.**

Through a nationwide network of local coalitions, Clean Cities provides project assistance to help stakeholders in the public and private sectors deploy alternative and renewable fuels, idle-reduction measures, fuel economy improvements, and emerging transportation technologies. The Department of Energy collects these data as part of the projects undertaken by Clean Cities coalitions and stakeholders to ensure customers' access to clean alternative energy.
