Summary

This dataset captures and establishes the geographic areas in which the organizational units of the BLM have distinct jurisdictional responsibility for land and resource management activities occurring on the public lands, the maintained rights of the United States (i.e. mineral estate) and actions relating to the Trust responsibilities of the U.S. Government as stipulated in Law or Treaty. Particularly, this data pertains to the following BLM groups and their purposes: BLM State, District, and Field Office Personnel; most programs and national applications within the BLM; other agencies and the public.

Description

This feature class is the Field Office level data from the feature level Dataset for the BLM Administrative Unit Boundaries Data Standard. The feature dataset includes both BLM administrative land areas and office locations. Land areas are depicted with polygons for the smallest administrative unit (field offices). Larger administrative units, such as district offices, and administrative states may be derived from these polygons. Office locations at each level are depicted with points.. This dataset is a subset of the official national dataset, containing features and attributes intended for public release and has been optimized for online map service performance. The Implementation Guide represents the official national dataset from which this dataset was derived.

Use limitations

These data are provided by Bureau of Land Management (BLM) "as is" and might contain errors or omissions. The User assumes the entire risk associated with its use of these data and bears all responsibility in determining whether these data are fit for the User's intended use. The information contained in these data is dynamic and may change over time. The data are not better than the sources from which they were derived, and both scale and accuracy may vary across the data set. These data might not have the accuracy, resolution, completeness, timeliness, or other characteristics appropriate for applications that potential users of the data may contemplate. The User is encouraged to carefully consider the content of the metadata file associated with these data. These data are neither legal documents nor land surveys, and

must not be used as such. Official records may be referenced at most BLM offices. Please report any errors in the data to the BLM office from which it was obtained. The BLM should be cited as the data source in any products derived from these data. Any Users wishing to modify the data should describe the types of modifications they have performed. The User should not misrepresent the data, nor imply that changes made were approved or endorsed by BLM. This data may be updated by the BLM without notification.

SUPPLEMENTAL INFORMATION

A published revision of the Department Manual's Part 305: Departmental Science Effects, Chapter 3: Integrity of Scientific and Scholarly Activities (305 DM 3), effective December 16, 2014, is available online at http://elips.doi.gov/ELIPS/DocView.aspx?id=4056. Scholarly information considered in Departmental decision making must be robust, of the highest quality, and the result of as rigorous scientific and scholarly processes as can be achieved. Most importantly, it must be trustworthy. This policy helps us to achieve that standard (http://www.doi.gov/scientificintegrity/index.cfm).

Each state office has a Data Steward or Contact Person for this data. Please contact the specific state office for additional information on their state dataset.

Data Quality

SCOPE OF QUALITY INFORMATION
  RESOURCE LEVEL   dataset

DATA QUALITY REPORT - ABSOLUTE EXTERNAL POSITIONAL ACCURACY
  DIMENSION   horizontal

  MEASURE DESCRIPTION
    This national dataset is an aggregation from multiple datasets provided by the BLM
    Administrative States, please call the distributor for additional information on provenance,
    history, accuracy and quality of the data. The positional accuracy across this dataset
    varies according to the source.

DATA QUALITY REPORT - QUANTITATIVE ATTRIBUTE ACCURACY
  MEASURE DESCRIPTION
    This national dataset is an aggregation from multiple datasets provided by the BLM
    Administrative States. Please call the distributor for additional information on provenance,
    history, accuracy and quality of the data. The accuracy of attributes in this dataset
    reflects that of the source datasets. Attribute accuracy was tested by validating attribute
    coded values against accepted domain values, checking that alpha-numeric values
    followed a valid format, and checking that numeric values were greater than zero.

DATA QUALITY REPORT - CONCEPTUAL CONSISTENCY
  MEASURE DESCRIPTION
    This national dataset is an aggregation from multiple datasets provided by the BLM
    Administrative States, please contact the distributor for additional information on
    provenance, history, accuracy and quality of the data. The logical consistency of this
    dataset reflects that of the source datasets. Each source dataset is run through a series of
    tests to verify that the data complies with the format specified in the Data Standard.
    ERRORS AND INCONSISTENCIES MAY STILL BE PRESENT IN THE DATA. These tests were
    conducted using ESRI ArcMap 10.1. The tests consisted of checking coded values for
    attributes against a domain of accepted values, checking that alpha-numeric values
    followed a valid format, and checking that numeric values were greater than zero. For the
    geometry, the topology was validated; however overlaps and gaps can still be found.

DATA QUALITY REPORT - COMPLETENESS OMISSION
  MEASURE DESCRIPTION
    This national dataset is an aggregation from multiple datasets provided by the BLM
    Administrative States, please contact the distributor for additional information on
    provenance, history, accuracy and quality of the data. The completeness of this dataset
    reflects that of the source datasets.

Lineage

PROCESS STEP
  WHEN THE PROCESS OCCURRED   Unknown
  DESCRIPTION
    Using the implementation guidelines, GIS staff at BLM field and state offices cross-walk
    and clean up their data to comply with the standardized national dataset. Then, the BLM
    field and/or state offices submit the data to the National Operations Center (NOC), where
    it is compiled to produce seamless national datasets.

  AVAILABLE FORMAT
    NAME   BLM Administrative Units
    SPECIFICATION   http://www.geoplatform.gov/spec/esri-map-rest
    FORMAT INFORMATION CONTENT   This feature data set covers both BLM administrative land areas
    and office locations. Land areas are depicted with polygons for the smallest administrative unit
    (field offices). Other levels of administrative units, other, district and state, were derived from
    these polygons. Overviews were created to improve drawing speed and should not be used for
    analysis.

DETAILS FOR OBJECT blm_field_office_area_231211_v2
* TYPE   Feature Class
* ROW COUNT   125
DEFINITION
BLM Administrative Unit Office These point features depict the physical locations for active
BLM Administrative Unit Offices (at the field office level and above). One physical location
may administer more than one administrative unit, and have multiple offices co-located in
that location. Therefore, point features may be coincident.

DEFINITION
This feature class represents the polygon features for active BLM Administrative Unit Boundaries at the Field level.

DEFINITION SOURCE
BLM Administrative Units (Boundaries) Implementation Guidelines

FIELD ADM_UNIT_CD
FIELD DESCRIPTION
Administrative Unit Code: The code that indicates the formal grouping of positions into designated units and the assignment of functions and responsibilities to those units based on the DOI FPPS structure.

FIELD ADMU_NAME
FIELD DESCRIPTION
Administrative Unit Name: The official name by which the organization is known. An organization may include businesses, agencies, or corporations, but not individual persons.

FIELD BLM_ORG_TYPE
FIELD DESCRIPTION
BLM Organization Type: A name that indicates the type of organization that is being described. Design Considerations: The organization type (field office, district office, administrative state, or other) corresponding to the polygon.

FIELD APPRV_DT
FIELD DESCRIPTION
Approval Date: The date on which the BLM Washington Office or Assistant Secretary, Land and Minerals Management approved or concurred with the change to the organization unit number, name and/or administrative unit boundaries.

FIELD EFF_DT
FIELD DESCRIPTION
Effective Date: The date on which an area of BLM land becomes the responsibility of a BLM administrative unit.

FIELD ADMU_ST_URL
FIELD DESCRIPTION
State Office URL : The URL of the State Office website. The standard format for a BLM state website is http://www.blm.gov/xx/st/en.html where "xx" is the 2-character state abbreviation.

FIELD PARENT_CD
FIELD DESCRIPTION
Parent Admin Code : The identifier for the administrative unit that has responsibility for other units. The code that indicates the formal grouping of positions into designated units and the assignment of functions and responsibilities to those units based on the DOI FPPS structure. The BLM administrative unit/office that is a combination of Administrative State Code and Administrative Office Code that fully identifies the geographic area which has jurisdiction over the lands.

FIELD PARENT_NAME
FIELD DESCRIPTION
Parent Name: The official name by which the organization is known. An organization may include businesses, agencies, or corporations, but not individual persons.

FIELD ADMIN_ST
FIELD DESCRIPTION
Administrative State Code : An alphabetic abbreviation that represents each of the 50 states of the United States, the District of Columbia, the outlying areas of the United States, and associated areas. FIPS PUB 5-2

DETAILS FOR OBJECT BLM Administrative Unit Other Boundary
DEFINITION
This feature class represents the polygon features for active BLM Administrative Unit Boundaries at the Other level

DEFINITION SOURCE
BLM Administrative Units (Boundaries) Implementation Guidelines

FIELD ADM_UNIT_CD
FIELD DESCRIPTION
Administrative Unit Code: The code that indicates the formal grouping of positions into designated units and the assignment of functions and responsibilities to those units based on the DOI FPPS structure.

FIELD ADMU_NAME
FIELD DESCRIPTION
Administrative Unit Name: The official name by which the organization is known. An organization may include businesses, agencies, or corporations, but not individual persons.

FIELD BLM_ORG_TYPE
FIELD DESCRIPTION
BLM Organization Type: A name that indicates the type of organization that is being described. Design Considerations: The organization type (field office, district office, administrative state, or other) corresponding to the polygon.

FIELD APPRV_DT
FIELD DESCRIPTION
Approval Date: The date on which the BLM Washington Office or Assistant Secretary, Land and Minerals Management approved or concurred with the change to the organization unit number, name and/or administrative unit boundaries.

FIELD EFF_DT
FIELD DESCRIPTION
Effective Date: The date on which an area of BLM land becomes the responsibility of a BLM administrative unit.

FIELD ADMU_ST_URL
FIELD DESCRIPTION
State Office URL : The URL of the State Office website. The standard format for a BLM state website is http://www.blm.gov/xx/st/en.html where "xx" is the 2-character state abbreviation.

FIELD PARENT_CD
FIELD DESCRIPTION
Parent Admin Code : The identifier for the administrative unit that has responsibility for other units. Design Considerations: The code that indicates the formal grouping of positions into designated units and the assignment of functions and responsibilities to those units based on the DOI FPPS structure. The BLM administrative unit/office that is a combination of Administrative State Code and Administrative Office Code that fully identifies the geographic area which has jurisdiction over the lands.

FIELD PARENT_NAME
FIELD DESCRIPTION
Parent Name : The official name by which the organization is known. An organization may include businesses, agencies, or corporations, but not individual persons.

FIELD ADMIN_ST
FIELD DESCRIPTION
Administrative State Code : An alphabetic abbreviation that represents each of the 50 states of the United States, the District of Columbia, the outlying areas of the United States, and associated areas. FIPS PUB 5-2
